

Rukmani belongs to Utter Pradesh and is living in Naharpur with her parents, 2 brothers & 4 sisters. Her father is labourer & mother is a domestic worker. The level of income is not satisfactory at all for surviving in the National capital. In a survey center in charge of Naharpur identified her and convinced her family to joining our Non Formal Education Program.

In our NFE class she learned basic things like- counting, addition, subtraction, days' names, months' names and so on. At the same time she is being provided nutrition at the center which has a positive effect on her health. Her life has changed quite a bit and she has now joined school from this session due to the intervention of Bal Sahyog. She is a brilliant student of her class. Rukmani and her family are thankful to Bal Sahyog & Tech Mahindra Foundation for changing the course of her life
